

USER STORY FOR TEMU MOBILE APPLICATION

Title: User Registration

As a: New user of the Temu mobile application

I want to: Create an account by registering with my details

So that: I can access exclusive features, save my preferences, and track my orders

Acceptance Criteria:

1. Required fields: Users must provide required information (e.g., name, email, password, phone number).
2. Valid email: Users receive a verification email to confirm their email address.
3. Password strength: The app enforces strong password requirements (e.g., length, complexity).
4. Unique username/email: The app ensures usernames/emails are unique to prevent duplication.
5. Error handling: The app displays clear error messages for invalid or missing information.
6. Terms and conditions: Users must agree to the app's terms and conditions.

User Story Details:

- Users can register using their email address, phone number, or social media accounts.
- The app validates user input and ensures data consistency.
- Users receive a verification email/SMS to confirm their account.
- The app provides a secure registration process, protecting user data.

Title: User Login

As a: Registered user of the Temu mobile application

I want to: Log in to my account securely using my credentials

So that: I can access my account information, view my order history, and complete purchases

Acceptance Criteria:

1. Valid login credentials: Users can log in with valid email/phone number and password.
2. Invalid login credentials: Users receive an error message for invalid email/phone number or password.
3. Forgot password: Users can reset their password via email or SMS verification.
4. Remember me: Users can opt for the app to remember their login credentials for future logins.
5. Secure login: The app uses secure protocols (e.g., HTTPS, OAuth) to protect user credentials and data.
6. Error handling: The app displays clear and concise error messages for login-related issues.

User Story Details:

- Users can log in using their email address or phone number and password.
- The app validates user credentials and authenticates the user.
- Users can reset their password if forgotten.

- The app provides a secure login experience, protecting user data and credentials.

Title: Add Product to Cart

As a: Shopper on the Temu mobile application

I want to: Add products to my shopping cart

So that: I can review and purchase the selected items

Acceptance Criteria:

1. Product addition: Users can add products to their cart from product details pages or product lists.
2. Cart update: The cart accurately reflects the added product(s), including quantity and price.
3. Cart visibility: Users can view their cart contents, including subtotal and total.
4. Quantity adjustment: Users can update product quantities in the cart.
5. Remove product: Users can remove products from the cart.
6. Error handling: The app handles errors, such as out-of-stock products or invalid quantities.

User Story Details:

- Users can add products to their cart with specified quantities.
- The cart updates in real-time to reflect changes.
- The app displays clear product information, prices, and totals.

Title: Payment Processing

As a: Shopper on the Temu mobile application

I want to: Make a secure payment for my order

So that: I can complete my purchase and receive my order confirmation

Acceptance Criteria:

1. Payment methods: Users can select from various payment methods e.g., credit/debit cards (Verve, Visa, MasterCard, American Express, Discover, Maestro, Diners Club, JCB), and Bank Transfer.
2. Secure payment processing: The app uses secure payment gateways (e.g., SSL, tokenization) to protect user payment information.
3. Payment confirmation: Users receive a confirmation of their payment and order status.
4. Error handling: The app handles payment errors, such as declined transactions or invalid payment information.
5. Order summary: Users can review their order summary before completing payment.

User Story Details:

- Users can enter payment information securely.
- The app validates payment information and processes transactions.
- Users receive a confirmation of their payment and order status.

Title: Forgot Password

As a: Registered user of the Temu mobile application

I want to: Reset my password when I forget it

So that: I can regain access to my account

Acceptance Criteria:

1. Forgot password option: Users can initiate password reset from the login screen.
2. Email/phone verification: Users receive a verification code or link via email or SMS to reset their password.
3. Password reset: Users can enter a new password after verifying their identity.
4. Confirmation: Users receive a confirmation message after successfully resetting their password.
5. Error handling: The app handles errors, such as invalid email/phone or expired verification codes.

User Story Details:

- Users can request a password reset using their registered email or phone number.
- The app sends a verification code/link to the user's email/phone.
- Users can reset their password after verifying their identity.
- The app ensures a secure password reset process.
